SOFTWARE & SOLUTIONS

PRESS RELEASE

- for immediate release -

DR YIELD ranked again among top 100 Austrian start-up enterprises

Graz, Austria - December 6, 2006. DR YIELD software & solutions, an innovative provider of yield software for the semiconductor industry has been listed among the top 100 start-up enterprises by the leading Austrian business magazine "Gewinn". "We are proud to being listed in the most prestigious business ranking for young enterprises in Austria for the second time in our two-year company history" says Dieter Rathei, Managing Director of DR YIELD. Austrian business magazine "Gewinn" lists the top 100 young start up companies, selected by an independent Jury, each year in its December issue. The ranking exists now for 18 years.

ABOUT DR YIELD

DR YIELD is an innovative provider of next-generation software for yield control in the semiconductor industry. DR YIELD was founded in March 2005, and has distribution partners in the United States and Singapore. Our YieldWatchDog™ software enables monitoring of IC functional yield and early detection of potential yield degradation at a level of unprecedented thoroughness and therefore significantly improves productivity of semiconductor manufacturing organizations.
